## NEXION'S ESSENCE

We're relentlessly focused on reaching outstanding goals in the field of sintered stone slabs and to stay on our commitment to excellence in manufacturing high quality slabs and large size tiles.

To us excellence comes from effort and experience. Effort and experience in mastering creativity, design, technology and process management.

We always aim high but we also allow for evolution and new valuable ideas. Italian creativity is in our soul: Nexion products are defined by quality, high standard and imagination. Materials blossom under the genius mind of Italian artistry history.

Never content to settle for the status quo, we also focus on engineering new advanced solutions and approaches.

Nature is an endless source of inspiration just as man-made materials are canvas for new perspectives. Both of these dimensions are stunning, textural, colorful and versatile mediums for designing and creating unique sintered solutions.

**“We always aim high but we also allow for evolution and new valuable ideas.”**

Nexion is a brand of Nexion International, a multinational ceramic company born from the meeting of two large family groups that have always been leaders in their reference markets: Ceramiche Speranza, the Italian firm founded in 1961 that established state-of-the-art manufacturing facilities in India together with the Aghara family, one of the leading players in ceramics and sanitary wares in India since 1977.

**COMPANY** |

All Nexion collections stand out for their superior physical qualities, chemical characteristics and beautiful aesthetics.

To achieve the highest quality standards Nexion combines its 50 years old tradition with ongoing research, development on materials, state-of-the-art technology, sophisticated manufacturing processes and significant resources to continuous improvement.

**COMMITTMENT TO QUALITY**

Nexion is a global brand that crosses the borders of different countries.

The main strategic value chain activities are based in Italy.

Our top-quality production is located in India into a fully automated state-of-art facility equipped with the latest Italian machineries. Our sales network focuses on specific high-potential and high-value target markets all over the world.

# REACH

We nurture our strong multicultural vocation: Nexion people are a successful and well integrated team with some of the top talent of the Italian and Indian culture, both rich in history, tradition and values. Everyday, 350 people use their passion, enthusiasm and highly specialized skills to turn the important targets we have set for ourselves into positive results.

**“350 people use their passion, enthusiasm and highly specialized skills to turn the important targets we have set for ourselves into positive results.”**

**PEOPLE** |

The most precious resources are our employees. For this reason, even before the launch of our plant we have given life to an special program of “Corporate Social Responsibility” which aims to provide to our employees and their families the best living work-life conditions possible especially in a developing country such as India.

The CSR program covers different areas: work conditions, welfare, surveillance and medical assistance; we dedicate great attention to our employees’s worklife balance by providing them high quality amenities and accommodations for their families within our company’s compound.

Our purpose is simple as much as essential in nature: we want to create the best possible working-life conditions allowing our employees to live a dignified and satisfying life both inside and outside the workplace.

We are proud of the standards that we have achieved and we hope that, following our example, more companies will commit to improve the working and living conditions of employees and their families.

LINK?

Thanks to an in-depth study of the finest marbles we devised many looks and surfaces that interpret natural marbles and artificial materials with new high-tech features, in line with the needs of contemporary architecture.

Our sintered marbles distinguish themselves for their rare beauty, able to give back all the flavor of marbles that have always represented the maximum degree of exclusivity in the construction field, designed and developed for the most refined tastes.

Nexion sintered marble is a modern synthesis between aesthetic richness and technical capabilities, highlighted even more by the multiple variations of surface finishes, striving to obtain the right perceptive effect according to its own design context.

## NEXION SINTERED MARBLE

### **Italian Design**

Nexion sintered surfaces are the finest expression of Italian style and imagination: a superior aesthetics of products designed in Italy by experienced creative.

### **Italian Quality**

Italian design can be accomplished only with Italian quality. High quality machinery and expertise about the way to apply the potential of technologies allow us to obtain reliable and lasting technical results.

### **Modularity**

Nexion offers the largest range of products in multiple sizes, surfaces and technical characteristics to find the right solution for any kind of space.

## **Innovative Design Surfaces**

Up to 8 different surfaces, with a great aesthetic impact combined with exceptional technical performance.

## **3D Textures**

The innovative 3D Textures have been awarded with the prestigious Red Dot Award: Product Design in 2020.

## **Customer Oriented**

Customization and personalization make our products as much as possible suitable to satisfy design needs and desires, allowing experimentation with a variety of graphics, fabrics, colors and more.

# 1. AESTHETICS

**The best creative have selected the finest inspirations to create a new range of refined sintered marbles that perfectly reinterpret natural and artificial materials, with a stylistic accent that stands out for a sophisticated contemporary taste.**

## 2. HIGH END

LINK?

**We have always worked on research and development of surfaces, trying to identify ourselves as much as possible with design approaches. This approach is the main road that allows us to create optimal aesthetic and performance solutions, aiming to satisfy the designers' needs and allow them to realize their visions.**

**HIGH END** |

# 3. REFLECTION

LINK?

**Sintered Marble blends the design of natural marble with a mirror-like capability to reflect light. This material is an evolution of marble-effect ceramic, a new solution which achieves an almost perfect mirror-like reflection with no distortion or waves in the light reflection of any objects.**

**REFLECTION**

## 4. SURFACE SPECIALIST

LINK?

**Every space deserves the right surface. We decided to focus on 8 surface options inspired by marble processing which can be re-design digitally to create any pattern in any possible look: from cement to stone or wood with no limits in creativity.**

**SURFACE SPECIALIST**

## Our Marble Looks Surfaces

Nexion has given to marble collections the beauty of sintered surfaces, designed for the most versatile and modular standard on the market. The result is an advanced mix of graphic qualities and performance advantages that opens a new era for interior design floors and walls, making Nexion a unique surface-driven brand in the world.

FULL LAPPATO

**Full Lappato** is the most notable marble surface in interior design. With perfect mirror reflection, obtained by superior glaze quality and master-class polishing, this surface exalts the graphics and the deepness of fine marble slabs.

LAPPATO MATT

**Lappato Matt** is a contemporary interpretation of marble surface, with its characteristic absence of any reflection. Dedicated to the world of design, architecture and furniture.

NATURALE

**Naturale** is a surface finish that can be appreciated for its well-defined softness. An advanced reworking of the graphic richness of the marbles, available in different floor.

## Lucido Opaco & Spazzolato

## SURFACES

**Lucido Opaco** is an iridescence modulations on surfaces devised by Nexion's research and development team, leveraging on its artisan mastery. The company has created the new Glossy-Matt surface, specially designed to emphasize the graphics of precious marbles.

The **Spazzolato** is distinguished by a feeling of softness, embellished with a delicate hollow and relief engrave graphic typical of real marble. A new visual effect with a tactile consistency also amplified and fully enhanced by its grazing light conditions on surfaces.

## Textures: the chiaro-scuro light effects

BOCCIARDATO

Finally, the **bocciaardato** one reproduces the results of a manual bush hammered technique, much appreciated since ancient times, which gives the surfaces a characteristic slightly corrugated appearance, very similar to that of the natural material.

RIGATO

Examining them all in details, the **rigato** one is characterized by very close parallel lines, running along the surfaces, giving them a very suggestive tactile and visual appeal.

PETTINATO

The **pettinato** texture reproduces a craftsmanship technique that gives a particular 3D effect to the surfaces, through the use of rigid bristle tools in the phases preceding the solidification of the material.

## NEXION INSTALLATION SUGGESTIONS

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications. Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics. It is not recommended to use grouting with coloured pigments in contrast with the colour of the tiles.

A modern interior scene featuring a fireplace with a fire, a black leather chair, and a small table, all set against a wall of large, textured stone tiles. The fireplace is built into a dark, recessed wall, and the fire is burning brightly. The stone tiles have a greenish-grey hue with natural veining. A dark wood horizontal beam runs across the top of the fireplace opening. The floor is made of large, square tiles with a similar greenish-grey color and texture. In the background, a black leather chair with a metal frame and a small, round, black table are visible.

# Packaging & shipping

Packaging is a fundamental element of customer service, being aimed at allowing maximum use of space/weight available and to minimize the risk of breakages, even on bumpy roads.

Nexion's packaging standards are based on carefully designed box and pallet packaging for the optimal load of trucks and containers.

That is very important when large tiles format are to be delivered and Nexion Logistics Department has devised a number of packaging system depending on product sizes and means of transport, including Euro-size pallets and metal A-frames.

Though shipping usually takes place under the customer's responsibility, Nexion is fully committed to help clients manage this activity in the best possible way.

Nexion's Customer Service Department works with clients and logistic companies to arrange for shipments and to guarantee that loading and unloading procedures are properly carried out, in particular at destination.
